No MSG

Unlike many other noodle restaurants, we at Benkei believe in creating our special soup from natural ingredients. We cook our soup from scratch and do not use MSG in our cooking. We filter our soup many times to take out the fat but keeping in the rich taste of chicken and pork. We believe in wholesome and healthy ingredients and that is our Benkei way of cooking. Enjoy.
*There is an unavoidable small amount of MSG in the soya sauce, curry spices, and gyoza spices that Benkei uses.
